

27th October 2023

To whom it may concern,

It is my pleasure to write a letter of recommendation for **Anvay Suri**, who has graduated from The Purpose Academy as a youth impactor by successfully completing 100+ hours of the program and has presented his project at the 1M1B Youth Summit at UC Berkeley in April 2023. The Purpose Academy is a social innovation and tech entrepreneurship program by 1M1B in partnership with SCET, UC Berkeley, and the Innovation Acceleration Group that enables the brightest young minds to solve the world's most complex problems.

Having worked closely with Anvay, I hope this recommendation helps him secure admission to your highly esteemed institution.

As part of The Purpose Academy, Anvay started HolyPaws, a transformative initiative dedicated to bolstering animal welfare organizations and NGOs. Through this project, his mission revolved around providing essential resources, facilitating infrastructure development, and fostering collaboration. Additionally, his project focused on educating the public about animal welfare, bridging gaps, and empowering NGOs. The project successfully raised 60,000 INR, aiding in the purchase of medicines and animal welfare infrastructure redevelopment and enhancing the lives of 70+ animals.

I have been consistently impressed by Anvay's intelligence, dedication, and passion for making a positive impact in his community. I have no doubt that he will continue to excel in his academic and personal pursuits, and I strongly recommend him for admission to your institution. I wish Anvay the absolute best for his future.

Yours Sincerely,

Saffin Mathew
Programs Director
1M1B Foundation
